Kathy,
I have discussed with Kristin and DNR agrees that the Consent for Access covers interim actions as well as sampling work under RI/FS. We look forward to receiving sampling reports and commenting on cleanup options proposed.
Let me know if any questions.
Shayne

Subject: Bremerton Gasworks Beach access for Removal Assessment

Shayne,
As I mentioned to you on the phone today, Cascade Natural Gas and EPA have entered into an Administrative Order on Consent to, among other things, perform a removal assessment and possibly a Time-Critical Removal Action, if one is necessary, on the beach north of the old Bremerton Gasworks. The last consent for access EPA received from DNR for this specific work is attached,

signed by Kristin Swenddal on 8/8/2012. It looks to me like it is still valid to provide permission for EPA, Cascade, and their contractors to access the beach for sampling this summer. Please let me know if DNR does not agree to continue to allow access or contact me to discuss any concerns you might have.

Thanks for your continued cooperation. We are looking forward to finally continuing this work.
